

**REVISED CSA STAFF NOTICE 51-309****NATIONAL INSTRUMENT 51-101  
STANDARDS OF DISCLOSURE FOR OIL AND GAS ACTIVITIES****ACCEPTANCE OF CERTAIN FOREIGN PROFESSIONAL BOARDS  
AS A "PROFESSIONAL ORGANIZATION"****Updated October 4, 2004**

This notice updates and replaces the information in CSA Staff Notice 51-309 originally dated January 19, 2004, and updated June 8, 2004.

**Introduction**

In January 2004<sup>1</sup>, we added the following professional boards to the list of professional organizations accepted for the purposes of National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities* (NI 51-101).

- California Board for Professional Engineers and Land Surveyors,
- State of Colorado Board of Registration for Professional Engineers and Professional Land Surveyors,
- Louisiana State Board of Registration for Professional Engineers and Land Surveyors,
- Oklahoma State Board of Registration for Professional Engineers and Land Surveyors, and
- Texas Board of Professional Engineers.

On June 8, 2004<sup>2</sup>, we added the **American Association of Petroleum Geologists** (AAPG) to that list.

On October 4, 2004<sup>3</sup>, we added to that list the **American Institute of Professional Geologists** (AIPG), but only for the AIPG's Certified Professional Geologists.

Accompanying this notice is an updated list of all accepted professional organizations under NI 51-101.

## **Background**

NI 51-101 requires reporting issuers to appoint one or more qualified reserves evaluators or reserves auditors to report to its board of directors on its reserves data (section 3.2). To be "qualified", a reserves evaluator or reserves auditor must possess appropriate professional qualifications and experience and be a member in good standing of a "professional organization" (subsections 1.1(x) and (y)).

The definition of "professional organization" in subsection 1.1(w) has four elements:

- (w) "*professional organization*" means a self-regulatory organization of engineers, geologists, other geoscientists or other professionals whose professional practice includes *reserves evaluations* or *reserves audits*, that:
  - (i) admits members primarily on the basis of their educational qualifications;
  - (ii) requires its members to comply with the professional standards of competence and ethics prescribed by the organization that are relevant to the estimation, *evaluation*, *review* or *audit* of *reserves data*;
  - (iii) has disciplinary powers, including the power to suspend or expel a member; and
  - (iv) is either:
    - A. given authority or recognition by statute in a Canadian jurisdiction; or
    - B. accepted for this purpose by the *securities regulatory authority* or the *regulator*.

CSA staff reviewed relevant documentation concerning the professional organizations' authority and recognition, membership requirements and disciplinary powers. We concluded that acceptance of the professional organizations would not be contrary to the public interest and would facilitate compliance with NI 51-101 by enabling reporting issuers active in the United States to continue the traditional, and acceptable, practice of engaging US professionals whose qualifications are consistent with the objectives of NI 51-101.

## **Acceptance of Professional Organizations does not Supersede Other Requirements**

Membership in one of the accepted professional organizations does not automatically mean that a person is a "qualified reserves evaluator" or "qualified reserves auditor" under NI 51-101. To be qualified under NI 51-101, the person must also have the requisite professional experience to carry out reserves evaluations or reserves audits in accordance with the requirements of NI 51-101 and the standards of the Canadian Oil and Gas Evaluation Handbook.

The CSA's acceptance of the professional organizations under NI 51-101 is only for the purposes of NI 51-101. NI 51-101 does not supersede or alter local regulations or requirements regarding professional membership, practice or proficiency.
